Comfortable: Firebase | JavaScipt | MongoDB | JWT | Stripe | REST APIs | Axios
Familiar: Next JS | Node | Express.js | Redux
Tools: VS code | Netlify | Git | Figma | Vercel
Soft Skills: Communication | Leadership | Public Speaking | Team Work

PROJECTS

Happy To Trip: The Ultimate Travel Guide.   **Live Link** | **Client Side** | **Server Side**

- Developed a tour and travel website using React Router, JavaScript, MongoDB, and Firebase. Provided users with personalized travel recommendations, detailed attraction information, and nearby hotel details.
- Implemented intelligent travel recommendation system to enhance user experience and engagement.
- Managed backend infrastructure, including MongoDB for database storage and Firebase for user authentication and real-time updates. Ensured seamless data retrieval and synchronization for a smooth user experience.

Art Of Defense: Train, Connect, Excel. Your Virtual Martial Arts Hub.   **Live Link** | **Client Side** | **Server Side**

- Led end-to-end development of a revolutionary web app using React, JavaScript, MongoDB, and Firebase, enabling seamless class booking and payment for students while empowering teachers to manage content effortlessly in the martial arts industry.
- Developed a user-friendly interface enabling easy class booking and secure payment processing for seamless user experience.
- Collaborated on a cross-functional team to design and implement essential features like authentication, class scheduling, and database management, ensuring a seamless user experience for the online martial arts school.

Toy Mania: Your Ultimate Toy Shopping Experience.   **Live Link** | **Client Side** | **Server Side**

- Developed a full-stack e-commerce website using React, JavaScript, Node.js, MongoDB, and Firebase, enabling users to register, login via Google, and seamlessly browse and purchase toys from the online store.
- Implemented functionality for users to not only buy toys from the store but also add toys for sale, providing a platform for users to sell their own toys and engage in a vibrant toy-trading community.
- Incorporated a unique feature allowing users to request specific toys that are currently unavailable, establishing a system for future availability and enhancing the user experience by catering to individual preferences and needs.
